Municipal Class Environmental Assessment Study for Bridge 16-WG

The Project

The Township of Centre Wellington conducted a review of a bridge to address its advanced state of deterioration. The bridge (16-WG) is located within the former Township of West Garafraxa, and is illustrated on the key plan below. Bridge 16-WG is located on 5th Line between Wellington Road 19 and Sideroad 15 in the rural area to the north of Fergus. The study was conducted in accordance with Schedule B of the Municipal Class Environmental Assessment (MCEA) process (October 2000, as amended).

Through consultation with Agencies, Members of the Public, and Indigenous Communities, the preferred solution for Bridge 16-WG is replacement of the existing bridge with a new bridge.
